FIT ALL LIFTS' SIZE

GEFRAN

WEG solutions satisfy all of the requisites for civil lift drives:

Safety

- Safety certification for operation with single output contactor in accordance with EN 81-20, EN 81-50
- Safety certification for operation in contactorless mode in accordance with EN 81-20, EN 81-50
- Safe Torque Off (STO) EN 61800-5-2:2007 SIL3
- Floor return in case of black-out with external emergency power supplies

Comfort

- Compact size and low noise for MRL installations
- Perfect landing at floor for safe entrance into/exit from the car
- Approach to floor controlled directly or with slowdown
- Pre-torque function for more gradual start and specific jerks

Cost effective

- Flexible configuration
- Low installation costs
- Small controller
- Contactorless configuration

Reliability

- State-of-the-art design and technology
- Specific testing and inspection of every drive

Overspeed governor LX150 Bidirectional
